

REDS BREAK GERMAN LINE AT STALINGRAD

Meandering Along the Main Stem

By WASH FAYETTE

It's a sort of religion around any newspaper office to get the paper out on time . . . and there are very, very few events which will lead to such sacrifice as purposely delayed press time . . . one of them is the World Series.

But, much as we hated to go late to get the full play-by-play report in the Record-Herald, it did have its rather warped compensations. . . sometimes we wonder just how much the folks want the fruits of our daily efforts . . . now we know that there are hundreds who must look forward to their paper every evening . . . because the telephones in both the news room and business office were jangling constantly from 4 o'clock Wednesday afternoon until I went home at 6:30 . . . the jingle, jangle, jingle had tapered off some when I came back at 7:30 . . . but there were still a few calls coming in at 10 P. M. . . While we hate to have to get off schedule, it is encouraging to know that so many are anxious to get their Record-Heralds.

With only the few exceptions that prove the rule, the folks were understanding . . . most of them had just forgotten about the World Series . . . they might not have been interested themselves in the classic battles, but they were charitable . . . if others were, the rest had no objection to getting their paper a little late for the few days the series is in progress . . . it's an annual occasion, you know . . . and now in these nerve-racking war-times we cannot afford to lose our sense of balance . . . we here in the Record-Herald feel that the World Series has a sort of tempering effect on life . . . helps us appreciate America and its blessings . . . because baseball is so typically American . . . the national pastime . . . with this breather, we can all dig right in just so much harder with the war effort . . . it's like putting the orange juice with the castor oil . . . makes the war and the sacrifices just a little easier to take.

When little Miss Ann Ducey, six-year-old daughter of City Manager Edwin Ducey, accompanied her father to the City Building a few days ago, she sat down at a typewriter and began to amuse herself by clicking the keys. Suddenly Police Chief Jess Ellis entered the room saying he had to have some papers signed and notarized. Looking across the desk at Ann he said, "Aren't you a notary public?"

Little Miss Ducey looked up demurely and quietly answered: "No sir, I'm a Democrat."

One day this week one of the officials of the Fayette County Civilian Defense Council came into the office with a frown on his face, relating difficulties he was having in getting a number of local men and women to cooperate by taking appointments for work on certain service committees to help in the civilian defense effort.

"A surprising number of Washington C. H. people still refuse to allow anything to interfere with their social or recreational activities," he declared. And then added:

"I am positive that if German or Japanese bombers were reported en route here and had gotten as far as Milledgeville, there would still be some of these people who would say, 'Don't bother me now. I have to finish this rubber of bridge.'"

ANTI-INFLATION BILL SATISFIES BOTH FACTIONS

Farm Bloc Leaders Content
Compromise Measure Meets
All Their Demands

HOUSE HAS TO PASS IT YET

Senate Legislation Would
Empower President To
Stabilize Living Costs

By JACK BELL

WASHINGTON, Oct. 1.—(AP)—A speedy adjustment of senate and house differences which would send the Administration's anti-inflation legislation to President Roosevelt for his signature within 24 hours was forecast today by congressional leaders.

Senator Barkley of Kentucky, the Democratic leader, said he saw no reason why the bill should not be laid before the president by tomorrow at the latest. That would be one day beyond the deadline set by Mr. Roosevelt in his Sept. 7 you-do-it-or-I-will message on cost of living controls.

Backed by an 82 to 0 vote in the senate, administration lieutenants sought to obtain an agreement by house members to the major features of a compromise senate version directing the president to stabilize prices, wages and salaries at Sept. 15 levels.

This would entail a reversal of the house vote to alter the basis of computing farm parity standards and acceptance of an administration-sponsored amendment inserted by the senate directing the president to raise ceilings where they did not reflect to growers the increase in labor and other costs since Jan. 1, 1941.

Senate approval of this latter provision by an 86 to 4 vote yesterday ended an eight-day controversy between the administration and farm bloc members over the conditions under which price ceilings would be placed on farm products.

Senator Brown (D-Mich), floor manager for the measure, told reporters he and others of like views were satisfied with the compromise because they believed it reposed in the president discretionary authority which would have been denied to him if the farm bloc had prevailed.

On the other hand, Senators Thomas (D-Okla.) claimed the compromise was a victory for the farm bloc members. There was little difference, he said, in the effect of the amendment finally adopted and his earlier proposal for an upward revision in parity standards to include the cost of farm labor as a factor. The senate accepted this but later threw it out.

"Everything depends on how this compromise provision is administered," Thomas declared. "It is essential that the spirit of the law be followed if the farmers are to have sufficient money to meet the cost of producing the necessary food."

His words were echoed by the leaders of four national farm organizations who had been fighting for the inclusion of labor costs in the legislation.

Despite assertions by Senators George (D-Ga.) and Clark (D-Mo.) that the bill would not stop inflation, the senate swept it to (Please Turn to Page Two)

35-Miles-an-Hour Speed Limit Goes Into Effect in America

By JOHN H. WIGGINS

WASHINGTON, Oct. 1.—(AP)—A wartime speed limit of 35 miles an hour for privately owned automobiles went into effect throughout the nation today but with enforcement methods varying from imposition of strict penalties in some states to appeals to patriotism in others.

The Office of Defense Transportation which ordered the speed restriction to help conserve the nation's rubber stockpile, declared all 48 states were taking some steps for enforcement.

Additional efforts at rubber

conservation came from the office of Price Administration which froze the sale of used tires and tubes pending completion of a new rationing program.

In some states where statutory speed limits exceed 35 miles an hour, authorities took various steps to encourage compliance. Ohio's Highway Patrol is "blacklisting" speeders by reporting them to Office of Price Administration officials who pass on applications for tires, tubes and new automobiles.

Governor John W. Bricker appealed to drivers' patriotism in urging them to drive more slowly.

Yanks Chase Japs Over New Guinea

GENERAL MACARTHUR'S
HEADQUARTERS, Australia,
Oct. 1.—(AP)—Australian troops were reported driving steadily up the southern slopes of New Guinea's Owen Stanley mountains today in pursuit of retreating Japanese forces after recapturing Nauro yesterday in swift 10-mile advance from Ioribaiwa Ridge.

An Allied communique announcing the advance said the Japanese were abandoning additional supplies and equipment as they fell back and an Allied spokesman declared there was no doubt their withdrawal was hurried.

Strong formations of Allied attack bombers, escorted by fighters, were reported harrying the enemy supply lines in the vicinity of Menari, about four miles north of Nauro where it was believed the Japanese might attempt a stand along a ridge.

The latest Allied advance apparently was negotiated with comparatively little opposition, for the communique said there had been no contact with the main body of the retreating forces.

An Allied spokesman said the Japanese had made no attempt to fortify their positions at Nauro as they did at Ioribaiwa Ridge, highwater of the enemy advance. The ridge was recaptured Tuesday.

Allied heavy bombers continued to pound Buna, main Japanese coastal base 78 miles northeast of Nauro and the intermediate depot of Kokoda.

(The navy department in Washington announced yesterday the loss of the 8,378-ton naval transport George F. Elliott and the small auxiliary transport Gregory off Guadalcanal Island in the Solomons on Aug. 8. The Elliott, formerly the Baltimore mail liner City of Los Angeles, was set afire when a Japanese torpedo plane crashed into her, the communique said. Most of those aboard both vessels were reported saved.)

(In another sector of the Pacific war, a Tokyo broadcast yesterday said that bitter winter already had come to the Aleutian Islands, blanketing them with snow, and that unsheltered Japanese camps at the western end of the chain were being swept with biting winds.)

A German transoceanic broadcast heard by the BBC quoted an article published in Paris by General Henri Jauneaud, who commanded French forces in the eastern Mediterranean areas before the armistice.

It said Jauneaud declared that the Vichy regime needed German war aid to fulfill the armistice pledge to maintain France's empire intact, and asserted that the loss of Tananarive, capital of Madagascar, must not be followed by "further defeats at Dakar, Casablanca, Tunis or Algiers."

Fighting French sources in London declared that Jauneaud's article was intended as a test of French sentiment toward sending German and Italian troops into French North Africa.

These sources, who must remain anonymous, recalled that Vichy acquiesced to Japanese "protection" over French Indo-China last year on the pretext that the Asiatic colony was menaced by the massing of British forces.

The President left Washington Thursday evening, September 17, and returned shortly after noon today, completing a trip of 8,754 miles, during which he inspected Army and Navy bases, Army, Navy and Marine training centers, supply depots and embarkation ports.

"The President traveled from Washington through Michigan, Illinois, Wisconsin, Minnesota, on west through North Dakota, Montana and Idaho to Washington, down the length of the Pacific coast and returned through the southwest, Arizona, New Mexico, Texas to Louisiana, and thence to Washington, stopping at Army cantonments in Mississippi and South Carolina.

CRISIS IN BATTLE LOOMS

Russians Repel New Attack
In Central Caucasus for
Grozny Oil Fields

By ROGER D. GREENE

(By The Associated Press)

Defenders of siege-torn Stalingrad are facing the "most decisive moment" in 38 days of assault, it was officially announced today, as fresh German tanks lunged deeper into the Volga metropolis at a terrible cost in men and machines.

North and south of the city, Soviet troops were credited with gains in attacks to relieve the main Nazi pressure.

A Reuters (British news agency) dispatch from Stockholm said Marshal Semeon Timoshenko's Red armies had broken through German defenses at some points along the Don River, northwest of the Volga steel center. Such a breakthrough might jeopardize the flank and rear of the main German siege armies.

But the situation inside Stalingrad was admittedly acute.

Red Star, the Russian army newspaper, said it was the hour of supreme peril and declared there could be no retreat.

Premier Stalin personally telephoned an order to the Soviet garrison commander to stand firm and put down panic, dispatches said.

Thousands of civilians were reported aiding the Red army troops in street battles, and latest accounts said the defenders were counter-attacking bitterly in response to Stalin's message.

Hitler's high command declared German shock troops had driven several more wedges into the northern section of Stalingrad—scene of the grave new threat—and asserted that Nazi gunners had destroyed 98 out of 100 tanks, mostly of British and American make, which led a Soviet counter-attack farther north.

A Moscow radio broadcast "the situation remains serious . . . but the city's defenders are determined to fight to the last drop of blood for every house and for every yard of the streets."

Red Star said more than 1,000 German planes were engaged in the assault.

The new German thrust was reported striking into Stalingrad's industrialized northwest suburbs, where the invaders launched a 150-tank assault Monday.

Soviet headquarters acknowledged that the Russians, after grimly resisting for three days, had at last been pressed back.

Above and below the city, the picture was brighter.

Dispatches to Red Star said Russian troops had recaptured three settlements south of Stalingrad, throwing back Rumanian forces in panic at one point.

In the north, Marshal Semeon Timoshenko's relief offensive was reported to have driven the Germans from another height along the 40-mile corridor between the Don and Volga rivers.

In the Central Caucasus, Soviet troops guarding the approaches to the Grozny oil fields were declared officially to be "repelling all enemy attacks and inflicting heavy losses."

Cards Win, 4 to 3 As Series Evened

Cardinals	2	0	0	0	0	0	1	1	x	4	6	0

SPORTSMAN'S PARK, St. Louis, Oct. 1.—(AP)—Stan Musial, Cardinal rookie left fielder, clipped a line single to center field in the eighth inning to score Enos Slaughter from third and give the National Leaguers a 4 to 3 victory over the Yankees in the second game of the World Series today. Charley Keller had squared it for the Yankees with a two-run homer in the Yankees half of the same inning.

The big crowd just had been plunged into despondency by Keller's wallop onto the right field roof when Slaughter and Musial combined to pull the game out of the fire. With two away, Slaughter binged a double into the right field corner and raced on to third as Phil Rizzuto, Yank shortstop, let the throw-in trickle through him. Musial, who had failed to hit in the ninth inning yesterday with the bases loaded, came through this time to send the throng home happy.

The victory for Johnny Beazley, 23-year-old freshman pitcher of the Cards, tied the classic at one win apiece and sent the two clubs on their way to New York tonight in a dead heat. The third game will be played at Yankee Stadium on Saturday.

Bonham, who had walked only 23 batters during the entire American League season, paved the way to his downfall when he issued a pass to Jimmy Brown, first Cardinal up. Captain Terry Moore then laid down a perfect bunt, which Bonham fielded and whipped to second base too late to get the flying Brown.

The next two Cards went out, Enos Slaughter on a high fly and Stan Musial on a pop foul, and it looked like Ernie was going to pull out of it. But Cooper smashed a line double and both runners scored easily as the ball went nearly to the fence.

Beazley, the 23-year-old rookie who started for the Cards, gave his supporters some anxious moments both in the first and second innings, but settled down each time like a veteran to halt the Yanks.

First Inning—Yankees
Rizzuto threw out five pitches. Rolfe flied to T. Moore in center.

Rizzuto stole second. Cullenbine struck out on four pitches. DiMaggio was thrown out by Kurowski.

No runs, no hits, no errors, one left.

Second Inning—Yankees
Bonham grounded out to Hopp, unassisted. Rizzuto hit a long fly to Musial in deep left.

Rolfe bounced a double off the wall in right field. Cullenbine flied high to Musial. No runs, one hit, no errors, one left.

Third Inning—Cardinals
DiMaggio ran over into left center to take Brown's fly. T. Moore flied a high foul which Dickey took just outside the batter's box.

Slaughter grounded to Rizzuto and was thrown out. No runs, no hits, no errors, none left.

Fourth Inning—Yankees
DiMaggio fouled to Hopp. Keller lined a single past Beazley's head.

Gordon lined to Kurowski, who threw to first trying to double Keller off the bag but was too late. Dickey slammed a ground single into right field, Slaughter holding Keller at second with a fine throw.

Hassett flied deep to Slaughter. No runs, two hits, no errors, two left.

Fifth Inning—Cardinals
Musial hit a bouncer which Rizzuto took behind Bonham and threw out at first.

W. Cooper bounced to Rolfe and was thrown out. Hopp shot a single into right field and when he rounded first Cullenbine threw to Hassett, who fumbled the ball for an error as Hopp streaked safely to second.

Kurowski lifted a long fly to right center and DiMaggio made a fine running catch. No runs, one hit, no errors, one left.

Sixth Inning—Yankees
Bonham walked. Rizzuto lined a sharp single to left, Bonham stopping at second. Rolfe grounded into a fast double play, Brown to Marion to Hopp, and Bonham went to third. Cullenbine flied to Musial. No runs, one hit, no errors, one left.

Seventh Inning—Cardinals
DiMaggio ran far over in front of Keller in left center to take a long fly by Marion. Beazley was called out on strikes.

Brown grounded to Gordon and was thrown out. No runs, no hits, no errors, none left.

Eighth Inning—Yankees
Marion ran over almost to the pitcher's mound to make a spectacular pickup of DiMaggio's bouncer and throw him out. Keller lifted a high fly to Musial. Gordon was called out on strikes.

Hitler Not as Smart as Villa, Who Waited on World Series

By KENNETH L. DIXON

WASHINGTON, Oct. 1.—(AP)—Ignoring Pancho Villa's astute precedent of 25 years ago, Adolf Hitler, clean-up man on the Axis ball club, walked up to the American publicity plate and popped out yesterday.

Washington front pages showed that on the nation's news diamond, Der Fuehrer's sportspalst speech played second fiddle to the horsehide battle out in St. Louis.

In the capital, where newspapers headlined the victory of the New York Yankees over the

St. Louis Cardinals in the first World Series game, Hitler's harangue hardly raised an eyebrow.

He was the headline writer's forgotten man, buried down with the smaller type.

Government workers kept at their jobs, but cocked one ear for the latest report on Yankee hurler Red Ruffing's seven-inning try for a no-hitter. Officials and employes clustered around radios, teletypes and telephones for play-by-play

GIRL, 4, ACCIDENTALLY KILLED BY UNCLE'S SHOTGUN

THE WAR TODAY

By DEWITT MACKENZIE

British Are Not Scared By Hitler's Threat of Revenge Air Bombings

EDITOR'S NOTE: Dewitt Mackenzie, widely known as the "War Analyst," is in London after a trans-Atlantic flight and the following is his first article on observing wartime Britain. He will proceed to other war zones, where governments and news developments permit.

LONDON, Oct. 1.—Herr Hitler's boastful promise to his people yesterday that he will retaliate against Britain for the bombing raids on Germany finds John Bull quite unmoved and stoically reconciled to renewal of the Nazi war from the air.

There can be no question of Der Fuehrer's intention to resume his aerial hymn of hate, but there is considerable doubt how far he will be able to carry out his plans. He no longer is the mighty man he was before he tangled with the unconquerable Bolsheviks, and his ability to conduct further wholesale bombings of Britain is contingent on several important things.

One of them is whether the Allies open up that second front about which he admits he is worried. His declaration yesterday that he is ready to meet such an offensive is at least partly true, for his defensive preparations in western Europe have been obvious. Should such an Allied operation eventuate, Adolf might find himself far too busy meeting it to permit of bombing Britain.

At the moment, of course, he is fully preoccupied with his thus far unsuccessful effort to annihilate the Russian Army of the south.

For months German efforts against Britain have been confined largely to nuisance raids. But John Bull is smart to anticipate that such a comparatively quiet condition won't continue indefinitely.

At present, virtually all Hitler's air power, apart from essential home defense, is engaged in his now-or-never assault on Stalingrad and the Caucasus. One wouldn't expect him to withdraw any of this strength until he achieves all he can before winter calls a halt.

However, once the Caucasus show slows down, wither then? It strikes me that he will be faced with numerous difficult problems now developing.

His airfleet is no longer the great weapon with which he started the war. He is short of warplanes, pilots, oil and gasoline. His first-line planes have been and are undergoing terrific wear and tear at Stalingrad. Before he can undertake any wholesale bombing of Britain, or any other extended engagement, he must go in for a thorough overhauling, and that will take time.

Also the Anglo-American air strength already in the British Isles is steadily growing. The Allies have superiority in the air over western Europe and are reaching for absolute supremacy.

Then, too, since Hitler slacked off on his bombing of Britain, defenses of these isles—both air and ground—have been vastly strengthened.

As I write I can hear the steady drone of Royal Air Force patrol planes as they swing over London—sweet music—and we presume that similar scouts are covering every strategic area. There have been great improvements in anti-aircraft defenses.

All this will take some beating. Maybe Hitler will have other projects on hand at that time. He might decide to throw his strength into his now stationary offensive against Egypt. He might try to reach the Middle East by using his air force against Syria, by-passing Turkey.

Now about that second front. It is interesting to discover that the British public is experiencing a lively hunch that the Allied high command is cooking up something.

I've encountered this feeling among military observers, too, on both sides of the Atlantic recently. There's nothing you can put your finger on, but its very persistence encourages belief that it isn't without substance. And now along comes De Fuehrer to say he's seen the ghost.

And in view of the fact that both Britain and America have stated they are preparing an offensive and will get into action as soon as feasible, it's not illogical to think that something might pop somewhere any time.

"Second front" and western Europe have become synonymous in the minds of many of the public, but signs are that it will be safer not to try to pin expectations to that area or to any other specific zone at this time. There are several useful places where the Allies could strike.

Where the Allies may strike remains to be seen, but one thing

DEATH INSTANT IN TRAGEDY AT SOUTH SOLON

Charge of Shot Intended For Blackbird Strikes Child in Chest

A blast from a 410 gauge shotgun fired at a bird killed little four-year-old Barbara Lee Blake in the back yard of her home in South Solon Wednesday.

Coroner W. E. Lukens of London returned a verdict of accidental death as he reconstructed the tragedy.

Barbara Lee, the daughter of Mr. and Mrs. Bernard Blake, he said, had gone with her uncle, 17-year-old Walter Blake, out back of the home in the village to shoot blackbirds. Just as Walter raised the gun to shoot, Barbara stepped in front of him. The full charge from the gun struck her in the chest at short range and she was killed instantly.

Walter, it was said, had been making her home with Barbara's parents. His mother and father, Mr. and Mrs. G. C. Blake, live on a farm near South Solon.

Barbara's father is the village marshal and the Blake family is well known throughout the community. Besides her parents and paternal grandparents, she leaves a sister, Beverly, and grandparents on her mother's side, Mr. and Mrs. Harve Kerns, of South Solon, and several more distant relatives.

Funeral services will be held at the Sprague Funeral Home in nearby South Charleston at 2 o'clock Friday afternoon. Burial is to be in the South Solon Cemetery.

is clear—if and when the Allied command decides to open a new front it will have the eager support of the people. That support is calculated to provide inspiration for action when it is wholly feasible. Maybe that's what Wendell Willkie had in mind when he said some of our military leaders may "need some public prod-ding."

GASOLINE STORAGE HAZARDS ARE CITED

Dangers from Explosions and Fires Seen

Persons who may consider storing gasoline before the rationing starts around November 22, should consider the serious risk of storing the inflammable material about their premises, is the admonition of Fire Chief George Hall.

Hall calls attention to the fact that a quart of gasoline, if left where it can evaporate, can cause sufficient gas in a building to completely wreck the building.

The law requires that when gasoline is stored in any quantity, it must be in approved containers painted red with the word "gasoline" printed upon it, it is stated.

ANTI-INFLATION BILL SATISFIES BOTH FACTIONS; UP FOR HOUSE ACTION

(Continued from Page One)

final passage in an eight-hour session yesterday.

The senate measure directed the president to act by Nov. 1 to stabilize prices, wages and salaries at Sept. 15 levels, while the house voted for stabilization at Aug. 15 levels without any deadline on action by the chief executive.

Both bills provided that no ceilings could be fixed on prices, wages or salaries below the highest point they had reached in the period from Jan. 1 to Sept. 15 this year.

The house incorporated the "little steel" wage formula in its measure, providing that no ceiling should be placed on wages which had not advanced 15 percent over levels of Jan. 1, 1941. While this was both a floor and ceiling for such wages, the senate declined to write the formula into its bill.

The senate added two amendments not in the house bill. One of these would permit the president to veto any utility or common carrier rate increases over Sept. 15 levels. Another would authorize him, as he already has done, to ban the payment of double time for Sunday and holiday work, unless it was the seventh consecutive work day.

ROSE AVE. P.T.A. GETS SET FOR YEAR'S ACTIVITY

Committees Named Before Supt. Murray Tells of 'Schools in Wartime'

The Rose Avenue School Parent-Teacher Association today is just about all set to go ahead with the year's activities now that its permanent committees have been named.

The appointments, made by the president, Mrs. Darrell Williams, at the group's first meeting of this term, included: membership, Miss Clara Davis and the pupils; program, Mrs. Ed Elliott, Mrs. Sherman Belles and Principle Mervin Britton; publicity, Miss Margaret Gibson; welfare, Mrs. Ernest Brookover, Mrs. John Callender and Miss Ruth Teeters; calling, Mrs. Sherman Belles, Mrs. Walter Hermes, Mrs. Haskill Thompson and Mrs. Ernest Brookover; council, Principle Britton, Mrs. Sherman Belles, Mrs. Ernest Brookover, Mrs. Walter Hermes and Mrs. Ed Elliott and Christmas box, Mrs. Leo Cummings, Mrs. Dallas Hess and Mrs. Dewey Toops.

Room mothers were appointed as follows: kindergarten, Mrs. Bauchman and Mrs. Hermes; second and third grades, Mrs. Leo Cummings and Mrs. Elza Arnold; third and fourth grades, Mrs. Ernest Brookover and Mrs. Taylor Bellar and fifth and sixth grades, Mrs. Harry Flint and Mrs. Dewey Toops. The first grade room mothers will be appointed later due to members having recently moved from the city.

Miss Davis reported that the membership drive was underway and would be continued through the next week.

There was a discussion concerning whether or not it would be wise to hold the annual supper and carnival this year. No decision was reached but the matter was placed in the hands of a committee which is to investigate various phases and decide whether or not the supper will be held. This committee will report its decision as soon as possible, probably within a week, it was said.

Mrs. Williams announced the meeting of the Ohio Congress of Parents and Teachers to be held in Akron October 14, 15 and 16. The theme of the meeting is to be "A Goodly Heritage." There was a report that the P.T.A. units of the city may combine their efforts and send a delegate which will represent the city since not many would be able to travel this distance at this time. The Rose Avenue P.T.A. voted to take part in this plan if approved by other units.

Prin. Britton, as program chairman introduced Miss Jane Durant, kindergarten teacher to the group. Group singing led by Mrs. Ed Elliott was a feature of the program.

Superintendent A. B. Murray was the speaker of the evening. His topic, "Schools in Wartime." He stated that "we need to recognize that there is much more to be done than is already being done. Civilians have had a great part and will have a far greater part as time goes on."

He discussed the "Key Drive" which will take place on October 1 from 6 until 7 P. M. saying this is just one of the many ways in which school children can aid in the war effort. He said the schools are asked to perform many services and that they are willing to do them even though sometimes it is hard to understand the ultimate value. Eventually they do see it and are glad to have had a part.

A social hour followed, the committee in charge being: Mrs. Williams, Mrs. Brookover, Mrs. Hidy, Mrs. Hermes, Mrs. Thompson and Mrs. Bernard Matson.

VETERAN RETIRED CHILLICOTHE—William A. Ruhlman, 75, engineer on the B. & O. for 49 years and 53 years with the railroad, has been retired on a pension.

TEACHERS AND PUPILS TO GET EXTRA GASOLINE

WASHINGTON — (AP) — The Office of Price Administration today ruled that cars carrying students and teachers to and from school were entitled to "preferred mileage"—that is, C ration books—as being in the category of essential vehicles.

ASYLUM FUGITIVE HAS JUDGE GUESSING

CINCINNATI, Oct. 1.—(AP)—David Mitchell, 29, a fugitive from the Lima State Hospital for the insane, was captured recently with \$6,190.

He first said he found the money in a house, then a second

house, and a third. The house owners claimed the money.

Judge Louis J. Schneider threw up his hands, said "the source of the money remains a mystery to this court," and awarded it to Mitchell.

The court labeled Mitchell's story "unworthy of belief," but ruled the others had established no claim.

PUPILS ARE DISMISSED TO HELP PICK APPLES

EAT "LIVERPOOL," Oct. 1.—Because of an acute labor shortage in nearby orchards, all four East Palestine school buildings will be closed next week to permit pupils to pick apples and other crops, Superintendent T. R. Hersh said today.

BIO-MINERAL FOR BETTER HEALTH!

RHEUMATISM, Arthritis is a painful disease. It causes agony and misery. The cause, in general, is acid condition in the blood. The source of the cause often is mineral deficiency in the foods we eat. What is the remedy? . . . For thousands of years, people regarded MINERALS as the best remedy for Rheumatism, Arthritis, Neuralgia, as well as diseases of the Stomach, Bladder and Kidneys. From ancient Greece, Egypt, Rome, China and India, down to the present day, year after year, people rush to the MINERAL SPRINGS for cure or relief.

THE BEST doctors, the most intelligent people, millionaires and laymen, kings and princes, when attacked by Rheumatism, Gall Stones, Stomach, Kidney or Bladder trouble, prefer to go to the Mineral Springs. In America we have the wonder Mineral Springs in Georgia, where our President goes. In France the Louvre and Aix Le Bains, and in Greece the very famous Springs of Thronion, where, according to the legend, Hercules, the God of Strength and Youth, drank and bathed to rejuvenate; to be forever young.

THE MIRACULOUS AID OF MINERALS

THE IMPORTANCE of Minerals for the good of our health is so widely recognized today that Doctors, Hospitals, Sanatoriums, Naturalists and Specialists, and the Government, urge the use of them. The warring nations bolster the health of their armed forces with minerals. Bakers enrich their flour with minerals and advertise it. In the press, in schools, in colleges, in churches, on the radio, everywhere, the cry is: MINERALS! . . . MINERALS!

BIO-MINERAL is a Natural Mineral compound and contains the very same mineral ingredients of the world's best Mineral Springs. It comes from the depths of the earth—Nature's laboratory. Bottled as it comes from the ground, is the nearest thing to going to the Mineral Springs. One bottle may do wonders. Contains NO alcohol—NO harmful drugs—NO opiates—NO preservatives—NO oil. NOT A SINGLE habit-forming ingredient. ONLY Natural, Life-Giving Minerals, highly concentrated in solution in pure water.

BIO-MINERAL IS NATURE'S GIFT

ORDINARY cathartics are habit forming and never cure constipation. They force out the foods and digestive juices from your stomach and do not correct the cause of your trouble. If you suffer from Constipation, Gas-Toxins, Bloating, Weak Kidneys, etc., try a bottle of BIO-MINERAL. After 2 or 3 days, with your own eyes you may see wonderful results. BIO-MINERAL is not a physic and does not interfere with the natural foods in your stomach. It reaches down to the ROOT—to the cause of your trouble, eliminating abnormal waste material, cleaning and purifying your intestines thoroughly in a Natural, harmless and painless way.

WHEN the poisons are out of your system, when the kidneys are purified, when the gas-toxins and bloating no longer remain in your stomach to cause acid condition in the blood, then you begin to feel your Arthritis leaving you—your Rheumatism saying good-bye. Nature is assisted to complete the recovery. Wise people go to MINERAL SPRINGS, and BIO-MINERAL is Minerals that you get at the best Mineral Springs.

TRY BIO-MINERAL AT OUR EXPENSE

START TODAY on the DRUGLESS road to health with BIO-MINERAL. Try this drugless NATURAL "God-sent" remedy which is easy to take and absolutely harmless. In a few days you may feel like a new man or woman. Regardless of how long you have been suffering and how many medicines and drugs you tried before and did not help you. BIO-MINERAL may be the remedy you needed and were looking for. Try it at our expense! . . . Nothing to lose. It is sold on a Money-Back Guarantee.

REMEMBER — It is your health that counts . . . Not your wealth, age, looks or knowledge! If you want better health, TRY BIO-MINERAL. It may do wonders for you. It may UPROOT and drive your ailments OUT of your system. HOW ABOUT YOUR RENT?
Many Americans labor under the delusion that their country owes them a living and the right to life, liberty and the pursuit of happiness.

An even greater number—intelligent enough to know that the privilege of being an American has been bought for them by the tears and blood of those who went before—nevertheless are complaisant about their good fortune and take the American heritage for granted.

Both of these classes need reminding that the freedoms and privileges they enjoy—freedom of speech and of worship, freedom to work, free education, the highest living standard mankind ever has attained—all of these benefits flow from the composite good will of the people of the United States.

For the inestimable privilege of enjoying those benefits we owe a debt to the United States. That debt may well be called rent.

Unlike many landlords, Uncle Sam demands his rental fee only when he really needs it. This is one of those times. Your rent is due. Are you paying?

Those men who have volunteered, those men who have been drafted, their wives and children and parents are paying their rent.

How about the rest of us?
Those who whine about the hours they have to work, the pay they get, are not paying their rent.

Those who do not buy war bonds and stamps up to the limit of their capacities are not paying their rent.

Those who waste precious rubber by unnecessary or careless motoring are not paying their rent.

Those who complain about necessary rationing programs, and decline to help save materials and transportation, are not paying their rent.

Those who refuse to take the trouble to gather metal scrap from around their homes and turn it in, to save grease for glycerine, to save tin cans for salvage, are not paying their rent.

Those who believe everything bad about our Allies, and spread alarming and disturbing rumors, are not paying their rent.

Those who argue that we can not win are not paying their rent.

Freedom and prosperity can not maintain themselves, except as we value them enough to pay the price.

Our rent is due. Let's pay it.

"MIGHTY OUR PLOWSHARES"

"Today we produce to destroy, but tomorrow we will produce to build." These were the words of Dr. Charles M. A. Stine at a recent meeting of the American Chemical Society as he described the new

Washington at a Glance

By CHARLES P. STEWART
WASHINGTON — A federal world is the end toward which democratic religions, economic groups and political leaderships are working, as insurance against future wars.
Totalitarianism's advocates aren't included, of course.
The totalitarians are in agreement with the Democrats to the extent that they want a world-wide-supergovernment, but their ideal of it is altogether different from the one for which democracy's spokesmen argue.
The democrats' concept is a friendly general organization, mutually acceptable to all its members, each of which will run its own local affairs but join in helpful cooperation where common interests are involved. It's to be approximately like our United States, with a governor and legislature apiece but with a collectively chosen president and congress, federally supreme.
The totalitarians' aim is a central despotism, with a Herr Hitler at its head. He's to select himself. There'll be no home rule anywhere. What the Fuehrer dictates will "go" from pole to pole.
There isn't much discussion of totalitarianism's merits—or demerits. Where it doesn't prevail it isn't popular with anybody. Where it does prevail nobody criticizes it adversely and continues to live.
In democratic countries, however, there's been plenty of debate relative to world federation's possibilities,

Flashes of Life

CHARDON.—Add seamen's shore leave perils:
Norman Kalar, who went through the Battle of Midway, was motorcycleing from the Pacific Coast to visit his mother here.
En route his vehicle hit a porcupine and three quills punctured a tire, but a patch enabled him to complete the trip.
PHILADELPHIA.—John Michel, Red Cross executive, made this appeal:
"Will the party who found a 12-bed emergency hospital in North Philadelphia yesterday kindly return it to the Red Cross?"
Michel explained that a cabinet maker, who built the interior of the 20 by 30-foot canvas emergency station, was delivering it when he lost the whole thing off his truck.

3. What was the composer Wagner's first name?
Words of Wisdom
Sense shines with a double luster when it is set in humility. An able and yet humble man is a jewel worth a kingdom.—Penn.
Hints on Etiquette
If there is doubt in your mind that a remark may be misunderstood and hurt someone, don't say it. You'll never be sorry if you leave it unsaid.
Today's Horoscope
Adaptability, strong feelings and a pleasant personality are the dominant traits of those who have birthdays today. They are gay and happy, yet their feelings are easily hurt. They are fond of music and art. An exceptionally fortunate year is foreseen for them, provided watchfulness against attempted deception in love and business is exercised. Benefits of an unusual character will be realized. The child who is born on this date will be very clever, popular and successful, but liable to suffer through the treachery of others in love and business. Elders will be most helpful.

One-Minute Test Answers
1. The piccolo and the contra-bassoon.

vistas to be opened to America after this war is won.

In a thousand and one chemical laboratories throughout America chemists are discovering new continents of matter at such a rapid pace under the pressure of war that "the world of 1940 has already become an antiquity," he said.

"The inconceivables of only two years ago are today's realities. The war is compressing into the space of months developments which might have taken a half a century to realize if necessity had not forced the pace.

"These pressures are unprecedented. The developments are unprecedented. Give us a victorious peace and the freedom of enterprise it should guarantee, and our progress will be unprecedented. Let our swords be mighty and mighty indeed will be our plowshares."

There are still too many hyphens in this country.

They say Uncle Sam is going to spend \$100,000,000,000 on the war next year. What counts, though, is the man behind the dollar sign.

Washington continues to be a madhouse, but signs of sanity appear here and there.

By Charles P. Stewart

along the line suggested above.
It's been especially effervescent in Washington, as the earth's important capital where it can be safely indulged in, and where, also, folk have time to listen to it and give heed; they're too busy with bombings in places like London, Stalingrad and Chungking, but practice blackouts are serious distraction here.
So when a controversy of the sort is due to develop itself, Washington invariably is where it breaks out.
Authorities on the subject simply swarm in Uncle Sam's governmental center.
As a foregone conclusion, it's the surviving democracies' diplomatic hub, with Russia among its spokes—if Communism's as democratic as professes to be. China, too, Europe's Axis-overrun nations likewise have set up their emergency agencies in our midst.
Jewish societies, persecuted by Fuehrers, dukes and caudillos, maneuver from here.
Pro-U.S.
Latin America is mostly pro-us, and getting more so.
Incidentally, the Latin Americas, remember, are predominantly Catholic, and their church, to its infinite credit, besides being democratic, has protested Axis inhumanity toward the Jews.
And the Italians? My experience with 'em is that they're anti-Mussolini.
There's another bunch—the Spaniards!

PICKING APPLES IS NOW UNDER WAY

Apple harvest is now under way, and orchard owners in the hill areas where most of the apples are produced, are finding it difficult to obtain competent labor to do the work.
A fairly good crop of winter apples is being gathered, and the work will be carried well into October before it is completed.
Truck loads of apples are beginning to reach this city, and most of them are enroute to northern points.
The price is somewhat higher than last year, according to reports.

Fundamental Requirements in Treatment of Arthritis
By LOGAN CLENDENING, M. D.
OF TREATMENTS for arthritis there is no end. The poor patient is put through a succession of mental experiences. First he is blown up with hope, then he is bewildered with different advice about a given remedy, then in most cases after a trial he is disappointed, then he hears of something else, is blown up with hope and the dreary round begins again.
It is well for every sufferer to remember the sound advice which the Committee of the American Rheumatism Association have issued in their primer on arthritis, as quoted in this column the last two days, to the effect that certain general principles of treatment should always be observed and are of indispensable importance. If they are being observed, it will do no harm to try other less proved treatments that do not interfere with fundamental requirements.
Fundamentals of Treatment
These fundamentals are, no matter what type of arthritis is present:
(1) Rest—general, of the whole body, and local, of the affected joint or joints.
(2) Improvement of the general health of the whole person: treatment of anemia by iron or transfusion, of malnutrition if it exists, of overweight if it exists, of focal infection if it exists, of digestive disturbance if it exists, etc.
This does not mean that any of these are causative of the arthritis, but that since the general health of the arthritic is less robust than of the average person, more than average attention should be paid to its improvement. Thus under focal infection the Committee says: "The patient with rheumatoid arthritis has as much right to the removal or treat-

Mark's Wife by MARIE BLIZARD

CHAPTER FORTY-SEVEN
PAM DROPPED her eyes and nodded miserably. "It was on account of Mother. She'd been giving him money. She was sorry for him, that was all, but . . . but she'd sent him notes. Oh, ye gods, what SILLY notes! Things that read like . . . well, if Dad ever saw them, there'd be only one thing for him to think."
Barbara's held breath escaped. "But if THAT wasn't true, why didn't you tell your mother and let her do something about it? The boy was blackmailing you!"
"I know he was," Pam gave her a full glance. She looked not a day over ten years old. "But I was afraid somehow Dad would find out. I hoped I could buy the notes back from Nicky somehow. . . . He was here last night. I got rid of him by threatening to have him arrested and deported. I just guessed that he was Italian, not Spanish. Some lucky guess!"
"Slower, please, honey. I'm confused."
"I had a letter from him yesterday, saying I had to meet him at Timmy's tavern. He'd been here before, looking the ground over. . . . I went there last night. It started to snow and the top was down on my car . . ."
"I know about that. Tell me what happened last night."
"It was the same old thing all over again. For hours. First he said he loved me and wanted me to elope. Then he got nasty. Sometime during all this, he said he was going out to call up Dad. After that, I didn't know what he was doing. But I had a brain wave. That was when I guessed right and threatened him and gave him some money I had to pay his way back to Santa Fe. He took it and gave me the notes. . . . I didn't even know what I was doing when I hit that man. He came out of the dark suddenly right in my way. I wasn't even sure I'd hit him. I was afraid if Dad . . ."
"Pamela, dear, Barbara said, "why did you let a molehill become a mountain? Why didn't you let an older person handle it?"
"I didn't know what to do. . . . I only knew . . . Barbara, there's something else I want to tell you."
"Now is the time."
"It's about my parents—and me. We haven't ever been like a . . . a family. Dad and Mother are both swell people, but they didn't seem to see each other that way. . . . Later, I've thought that Claire was beginning to be more . . . more like a mother."
Barbara was nodding her head.
"And you thought that you were going to be an old-fashioned family, and if your father knew about this, it would spoil something you've always wanted."
"That's about the size of it," Pam told her eagerly. "But Dad's got a lot of old-fashioned ideas, and Mother hasn't been exactly an ideal wife. Dad would probably wash his hands of her if he knew what a fool she'd made of herself."
"But he's going to know," Barbara said. "He's got to know. He'd like that kind of a family you want, Pam. You ought to know him better."
Pam gave her an alarmed glance. "You're not going to tell him?"
Barbara shook her head. "You are," she said.
Pam shrank back in her pillows. "Pam, your father and mother love you—and each other. This is the thing that's going to bring you all together. . . . He's at home now. In the library, doing some work. Here . . . put on your robe and go right down now."
Pamela took the pink chenille robe, but her face was very white. "Can they send me to jail?" she asked.
"They won't," Barbara said cheerfully. "Your father will fix things."
"How?" Pam demanded, not very stoutly.
"What good could come of sending you to jail?"
"But the law—"
"Mr. Tobler is going to get well. He won't prosecute if he's generously provided for. And," Barbara added with elaborate casualness, "if you feel any moral obligation, wouldn't it be better to do something really fine for a lot of people? You know the town needs a hospital . . ."
Pam, Barbara was chagrined to note, seemed to be paying little attention to what she was saying.
"Where are those silver mules?" Pam said, on her knees beside the bed. Looking up suddenly she said, "Barbara, suppose I had let you take this rap. Would you have let me get away with it?"
"I haven't thought it out. I would have had to think of my little boy. But when I remember that you helped me out when I had no other place to turn . . . maybe . . . maybe, mind you . . . I might have."
Pam slipped her feet into the mules. "I think you're crazy!" she said fiercely. "Some day you're going to find out there's a lot of plain house in people, and what are you going to do then?"
Barbara laughed. "One minute,

This Gives Idea of Censorship Policy

HOT SPRINGS, Ark.—(AP)—Compiling American newspapers for "striking a balance in handling war news within limitations of the censorship code, Byron Price, director of censorship, urged them today to explain to the public why some information has to be withheld."
"The American people cannot be expected to fight the war in a vacuum," he said in an address prepared for delivery at the annual convention of the Southern Newspaper Publishers Association here.
"Neither should they, nor will they when properly advised, want to see in print any disclosure which would endanger the life of a son or brother."
Summarizing nine months experience with voluntary censorship, Price said some Americans felt "the system was a feeble and futile method" while a large body of public opinion held that more information, not less, should appear in print.
"The newspapers of the country have done a good job of striking a balance," he said but added they "have done a poor job of informing the people why some information has to be withheld."
"I suggest to you that a patient explanation of these requests and of the reasons behind them probably would x x x foster confidence in newspapers by emphasizing the degree of their cooperation in the war and it might convince a greater number of readers that they should guard their own tongues more carefully."
Pointing out that the basic consideration behind censorship was "that none of us shall provide the enemy, by design or inadvertence, with information that will help him kill Americans," Price gave the publishers examples of the benefits derived from voluntary censorship and disasters possibly resulting from apparently "unimportant" violations.
Censorship withheld from publication for more than a month news of the sinking of the aircraft carrier Lexington in the South Pacific last May 8, he recalled.
"Surely there is sense in the belief of naval experts that Japanese ignorance of the loss led Japan's admirals to overestimate the American force from which they turned tail and ran at Midway," he said.
On the other hand, he told of a case in which the details of movement of a special train of oil cars was publicized for advertising purposes although the code asked that such information be withheld.
"A few days later a similar train bound for the same destination was wrecked and burned," Price related. "No direct evidence of sabotage was discovered. Maybe it was mere coincidence. Maybe not."
Giving a code catechism, Price supplies these answers:
Disclosure of the exact regiment in which a soldier is serving abroad is withheld because if the enemy is supplied with such information "he will know the total strength x x x and can tabulate in details what arms and equipment they are likely to have with them, and what special training they have had."
Premature disclosure of diplomatic discussions is withheld because "A major defeat on the diplomatic front may be as disastrous x x x as a major defeat on the military front."
Nothing should be said about training special units because "perhaps the enemy has learned some of our methods, but who knows how many?"
Details of submarine attacks are withheld because cargo details disclose what materials we are transporting and in what direction; and a sufficiency of our information would tell the enemy all about our stockpiles and shortage on critical materials. Exact data on the effectiveness of any torpedo hit would be highly useful to the enemy in determining the value of his own weapons. What was said or what was omitted about escorting ships would

League of Women Voters Tea and Benefit Party Attended by One Hundred

The Fayette County League of Women Voters, numbering approximately one hundred, assembled at the home of Mrs. David S. Craig on Wednesday afternoon, for the annual benefit bridge and Chinese checkers party of the League.

The enthusiastic zest of this serious-minded group of people, in an atmosphere of pleasure and relaxation, was interlaced with an invincible net work of the understanding of a world's problems which the league strives to interpret intelligently.

Mrs. Craig, founder of the local league, and for twenty years its president, was a most gracious hostess, and the spacious Craig home with its wealth of treasures from many lands, was radiant with hospitality enhanced by the homely beauty of immense bowls of mellow red apples, and brightened by roadside red berries in tall vases, indicative of the early autumnal season.

Mrs. Jean Nisley, the very efficient young president, and her committee, had planned the party with such intricate cleverness that from start to finish, it progressed with automatic precision.

The favors in the bridge contest were delicious home made cakes awarded to Mrs. Harry Rankin and Mrs. M. J. Hagerty. In the checker contest Mrs. Peter Smeltzer and Mrs. William Haigler received hand-painted cards made by Miss Bess Cleaveland, with War Stamps attached.

Delicious home-baked cake and ice cream were served from immense silver trays embellished with autumn vines and late-blooming honey suckle. New memberships were received and there were out-of-town guests.

Mrs. D. H. Robe distributed to members of the league and their guests the two popular broadsides — "Washington Our National Home Town," and "OPA Cheap at the Price."

These broadsides, sent out monthly to members of the league by the National League of Women Voters, serve to meet the needs of busy women, and men too, who seek to know the truth, briefly and accurately.

It has been said that America could scarcely fight a war without broadsides. Broadside is not new or original but they have an important place in the war effort, by the side of the newspaper and the radio.

As far back as the Revolutionary War these single sheets, which were really hand bills printed on one side, were used by opposing parties.

They were tacked at night on the door of the town house, tavern, or coffee shop, left on doorsteps, or handed out secretly on the streets.

They were read aloud to groups who were gathered around, and their influence

spread far beyond the confines of the literate public, and led to the understanding of the Stamp Act and directly to the Boston Tea Party.

The next meeting of the Fayette County League of Women Voters will be a mid-day luncheon at the Washington Country Club on Monday, October 19, to which all women of the county and city are invited.

Mr. C. C. Shively, state president of the League, and Miss Ruth Cole, state executive secretary, will be the keynotes of the League activities for the coming year.

Officers of the local league are: President, Mrs. Jean Nisley; first vice-president, Mrs. D. S. Craig; second vice president, Miss Edith H. Gardner; secretary, Miss Agnes Kerrigan; treasurer, Miss Alberta Coffman.

Chairman of departments and committees will be named by the president at the October luncheon.

Ohio LWV

The Ohio League of Women Voters, declaring that "this war can be lost if our domestic economy is disrupted," called upon six Ohio congressmen Wednesday to oppose all measures which might increase the cost of living.

The six congressmen, five Republicans and one Democrat, voted last week to increase parity on farm prices.

The following telegram was sent to Representatives Clarence J. Brown, Cliff Cleveland, Thomas A. Jenkins, J. Harry McGregor, Martin L. Sweeney (D), and Robert F. Jones, following a motion by Mrs. Malcolm McBride of Cleveland, the League's chairman of field work:

"Last week you voted to increase parity for farm prices. The Ohio League of Women Voters is certain that this war can be lost if our domestic economy is disrupted by runaway inflation. We urge your opposition to all measures which will inevitably increase the cost of living and bring about this disaster."

Mrs. C. C. Shively, president of the league, signed the telegram, as well as one to Senator Alben W. Barkley, Kentucky Democrat, which read:

"The Ohio League of Women Voters urges the Senate to act immediately and pass effective legislation to curb inflation."

About 200 league members, from all sections of the state, attended the conference.

Mrs. Alva Beedy graciously opened her lovely home on Elm Street to the many friends of Mrs. John Mongold, for a miscellaneous shower on Tuesday evening.

Mrs. Mongold (Betty Leach) is a bride of September 25. An array of lovely gifts were presented to the charming honor guest, and after each were opened and acknowledged, there was dancing and much merry-making with a "Belling Crowd" joining the party at half past nine.

Refreshments were served buffet style from a prettily decorated dining table.

Assisting Mrs. Beedy was Mrs. Urtha Leach and Mrs. Blanche Welch.

Dinner For Mrs. Showell

Mr. and Mrs. W. L. Stinson entertained with a dinner party on Tuesday evening, complimenting Mrs. Mae Bowman Showell, of Princeton, N. J. Other guests were Mr. and Mrs. Jack Hicks and daughter, Holly.

Joan Campbell Feted by Lovely Party Wednesday, Honoring Her 6th Birthday

One of the gayest and jolliest affairs was staged in the Washington Country Club, Wednesday afternoon, when Mrs. Condon Campbell complimented her older daughter, Joan, with a lovely party, the occasion her sixth birthday.

Fifty youngsters romped through the spacious lounge and enjoyed the many pleasures provided them from half past three until five-thirty o'clock.

The club house was an ideal setting for the happy affair, and was gaily decorated with a patriotic theme, admired by both the young and older eyes of the guests.

The pretty and sweet honor guest looked exceptionally charming in her party frock of blue taffeta. Tied in her pretty ash colored curls was a cluster of yellow asters. Welcoming the guests with Joan, and a ring-leader in all activities, was her adorable younger sister, Margaret Alice, who looked like a doll in her peach colored taffeta dress.

All sorts of games were provided for the group of youngsters with clever and most appropriate prizes presented to each.

Prettily wrapped gifts of a both useful and ornamental assortment were presented to the guest of honor, who opened each, exclaiming happily over every one, and thanking the guests in her very winning young manner.

The children were all seated in a large circle for the serving of the ice cream and cake, and the presentation of the party favors. The cake attracted every eye, in its beautiful decorations of red, white and blue, topped with an American flag. "Happy Birthday, Joan, 6 years," was written on the frosting. The napkins, snappers and ice cream carried out the patriotic theme.

Favors of small flower pots of the three colors, holding red and white gumdrops were gaily received, each young guest treasuring theirs to take to their home with them.

Delores Jacobs and Carolyn Turnpseed assisted Mrs. Campbell during the afternoon.

Invited guests were Carolyn Beatty, Patty Ann Bennett, Carolyn Christie, Annette Cline, Ann Deer, Mary Ella Dadds, Marjorie Hunter, Jean Hallway, Carol Ann Coker, Elizabeth Ann Loudner, Julia and Jean Persinger, Joyce Powless, Dorothy Ruth-erford, Barbara Sells, Barbara Whitten, Donna Jean Yerian, Ann Hire, Joan Anderson, Sue Ann Christopher, Patty Ireland, Donna Andrews, Diane Everhart, Portia Brownell, Ann Taylor, Sue Riley, Joan and Dinah Davis, Judy and Roxie Rost, Linda and Joan Halliday, Sally and Mary Jo Reiff, Sue and David Barchet, Marilyn and Michael Cunningham, Eddie Korn, Bobby Dunton, Jerry Dunton, Tommy Vettrone, Billy Trimmer, Danny Terhune, Max Shepherd, Larry Robinson, Jimmy Pratt, Hughie Oyler, Charles and Patty Litz, Ed- die Lowe, Kenneth Halley, Marilyn Goff and Evelyn Lloyd.

Mrs. Frank Laderer, and two children, John and Elizabeth Ann of Columbus, were the only out-of-town guests.

Enochs - Anderson Vows Exchanged In Covington, Ky.

Eliciting the good wishes and felicitations of their many friends is the announcement of the marriage of Miss Vivian Anderson, daughter of Mr. and Mrs. S. J. Anderson, of Good Hope, to Pvt. John R. Enochs, son of Mrs. Lucy Enochs and Mr. Earl Enochs.

The wedding was an event of September 7, and was solemnized in Covington, Ky. Rev. Tip-ton, of the Christian Church performed the wedding and the young couple were attended by Miss Virginia Everhart, of Covington, and Mr. Howard Snyder of Washington C. H.

The young bride was lovely in her wedding costume of black and white, made in most becoming lines. A girl gifted in both beauty and personality, she is a graduate of Wayne High School in 1941 and since that time has been employed by the Ohio Bell Telephone Company, Washington C. H.

Pvt. Enochs was a member of the graduating class of 1939 of Washington C. H. High School, and was then employed in the P. Hagerty Shoe Company, until he went into the army. He is now stationed at Ft. McClelland, Ala.

Mrs. Enochs is making her home for the duration at 732 South Fayette Street.

Soldiers' Queen

When soldiers at Punahou school, Honolulu, decided to choose a new "Queen of the Hawaiian Isles," they selected her from photos of the troops' girl acquaintances. Winner was Shirley Bingham, above, of Ogden, Utah.

W. T. H. Class Given Party by Mrs. Weiland

Mrs. Jane Weiland and Mrs. Leona Rose were hostesses to members of the WTH class of McNair Church, entertaining Tuesday evening at Mrs. Weiland's home.

In the absence of the president, Mrs. Rose, the vice president conducted the business session and devotionals. Contributions were received for the box which the church is sending to the Mission School at Mt. Vernon, Ky., which was recently destroyed by fire and plans for a rummage sale in the near future were also discussed during the business session.

An enjoyable social hour followed with favors in a clever contest going to Mrs. Clifford Foster and Mrs. Homer Scott. The hostesses served dainty refreshments typical of the autumn season.

SORGHUM CROP ONCE IMPORTANT IS VERY LIGHT

Little Syrup Is Obtainable
In Fayette County
This Season

Lovers of sorghum molasses—and there are a great many in Fayette County—will have to go outside of the county to obtain their supply of syrup this fall, except in a very few instances.

As a matter of fact the sorghum crop, once a most important one in Fayette County, is all but forgotten in Fayette County, and reports indicate that there are not over half a score of small patches of sorghum in the entire county this season.

Years ago when sugar was less plentiful and corn and other kinds of syrup were almost unknown, most of the molasses, or syrup, used in Fayette County came from home grown cane, and formed one of the highly important crops.

Not everyone raised cane (this is not a pun) but a large number did, and there were scores of home plants for converting the cane into syrup, and there was a ready market for the product in the immediate neighborhood.

Grocery stores purchased sorghum by the barrel, and sold it by the gallon, or even by the barrel, if the purchaser desired. First the cane was stripped of its leaves before a killing frost, and then the stalks were cut, top removed, and the cane piled up or shocked until it could be run through the mill.

The mills invariably were operated by horsepower, one or two horses pulling a "sweep" in a circle, and a man fed the cane into the heavy iron rollers, which squeezed the juice from the stalks, allowing it to run into large containers.

Then the work of reducing the raw juice to syrup was started, with a series of long shallow pans resting on brick or stone walls, while a wood fire underneath furnished the heat which kept the juice and syrup boiling until it was finished and ready to be barreled. Considerable skill was necessary to produce high grade syrup, and a great deal of "skimming" was necessary to remove impurities.

Fayette County residents who obtain their sorghum molasses now invariably find it in the hill counties to the south, and even there the production has dwindled until it is almost a lost art.

'SELL SPEEDER'S TIRES,' JUDGE'S RECOMMENDATION

DETROIT, October 1—(P)—Sentencing a speeder for going 80 miles an hour, traffic Judge George T. Murphy proposed yesterday that such violators be compelled to sell their tires to the government for resale to war workers. "Taking tires from people like you would be fully justified in this national emergency," Judge Murphy said.

CAIRO, October 1—(P)—Wing Commander G. H. Stainforth, Schneider Cup winner in 1931 and former holder of the world's seaplane speed record, has been killed in action in the Middle East where he commanded a night fighter squadron, it was announced today.

At 43, he was the oldest fighting pilot in the Middle East.

Joan Crawford - Melvyn Douglas in 'They All Kissed the Bride,' 1942's Biggest Laugh Hit at State Theatre

One of the finest comedy casts ever assembled, in what Hollywood regards as one of the most gaily tender comedies of the season, may be seen Sunday at the State Theatre, where "They All Kissed the Bride" will co-star Joan Crawford and Melvyn Douglas.

As second feature of this great program America's smashing answer to Nazi saboteurs, which was so graphically described in recent newspaper stories, will open Sunday at the State Theatre featuring Bruce Bennett, Kay Harris and Edward Norris. "Saboteur Squad" is a fast moving, action packed picturization of a ruthless spy hunt.

POET'S CORNER

THE HILLS OF LIFE

The hills of life are hard to climb,

They are so very high and steep;
But I must reach a higher plane,
Before I fall asleep;
I dare not look back,
O'er the rough road I have trod;
Nor to the right, or to the left,
But keep looking up to God.

Sometimes, the earth gives way,
Beneath my weary feet
But I must climb and climb and climb!
For I will not take defeat;
When at last I reach the great divide,
By the help of my faithful Guide;
I will have the joy, to see and know,
What lies on the other side.

BACKACHE, LEG PAINS MAY BE DANGER SIGN Of Tired Kidneys

If backache and leg pains are making you miserable, don't just complain and do nothing about them. Nature may be warning you that your kidneys need attention. The kidneys are Nature's chief way of taking excess acids and poisonous waste out of the blood. They help most people pass about 3 pints a day. If the 15 miles of kidney tubes and filters don't work well, poisonous waste matter stays in the blood. These poisons may start nagging backaches, rheumatic pains, leg pains, loss of pep and energy, getting up night, swelling, puffiness under the eyes, headaches and dizziness. Frequent or scanty passages with smarting and burning sometimes shows there's something wrong with your kidneys or bladder. Don't wait! Ask your druggist for Doan's Pills, used successfully by millions for over 40 years. They give happy relief and will help the 15 miles of kidney tubes flush out poisonous waste from the blood. Get Doan's Pills.

SHORT WEIGHTS IN COAL BEING INVESTIGATED

Sales from Trucks Given Attention by Deputy Sealer Ray Rumer

For sometime complaints have been floating about that short weights have been given by certain coal truck operators in Washington C. H. and the first arrest in this connection has been made upon affidavit filed by Ray Rumer, deputy sealer of weights and measures.

It is indicated that other arrests along the same line are in the offing in an effort to bring about honest weights in non-residents disposing of coal in the city and county.

John B. Lytle, of this city, who has been acting as agent for some of the coal truckers, was the first man to be brought into court as result of short weights.

Lytle was specifically charged with selling 1500 pounds of coal to Ellen Brandon, for 4,000 pounds. Another man is wanted in connection with the same transaction, and his arrest is expected at any time.

Lytle was taken into custody and lodged in jail until he could be arraigned on the charge.

Tuesday he was taken before Justice George Worrell, where he pleaded guilty to the charge Deputy Sealer Rumer had placed against him, and was fined \$25 and the costs.

Failing to pay the amount, he was remanded back to jail to await payment.

In the meantime Rumer and other officers are making into other coal transactions with a view to ferreting out the offenders and placing charges against them, if the weights are found short.

The above offense indicates how the practice of giving short weights is carried out, and in the particular instance, the coal delivered was 2,410 pounds short of the amount sold and collect for.

Destroyed by Fire
A barn and near-by garage were destroyed by fire at the country home of Charles Pope, south of Reesville, on Route 72, about 8:30 P. M. Friday.

The fire when first discovered by Mr. and Mrs. Pope was near the center of the barn roof and it is not known how it started, but had to much headway to try to save it. All livestock and most of the machinery was removed and the auto taken from the garage. 100 bushels of oats burned in the garage and hay and some implements in the barn was also burned.

By heroic work of friends and passersby, the home and chicken house, where there were 100 young fry, were saved. The loss was several hundred dollars.

SAFETY COUNCIL MAKES PLANS FOR THIS WINTER

Greater Representation Is
To Be Sought Throughout
Fayette County

The Fayette County Safety Council held an interesting session at the club rooms of the Dayton Power and Light Company, with a good attendance. Forest E. Hill, president, presided over the session.

A round table discussion was scheduled but most of the time was occupied by President Hill in outlining the program for the monthly meetings that are to be conducted throughout the coming winter.

The last Monday of each month was tentatively decided upon for the meetings.

Plans were also discussed for a School of Safety, First Aid, Fire Prevention and other subjects in line with the safety program.

All organizations and business firms in the county are to be contacted before the next meeting, and urged to have some one to act as key man or woman, and to be present when the round table program is carried out on one or more subjects of safety that is most important.

At the Tuesday night meeting representatives were present from the P. Hagerty Shoe Co., Dayton Power and Light Co., Ohio Bell Telephone Co., Coca Cola Bottling Co., R. Brandenburg Motor Sales, Consolidate Products Co., Washington Candy Co., Record-Herald, Morton Show Cases, Inc. and Jackson Glove Co.

REDUCTION OF FIRES SOUGHT

Governor Bricker Joins in
Plea for Preventing
Conflagrations

Reminding Ohioans that Gov. John W. Bricker has proclaimed the period of October 4 to 10 as Fire Prevention Week, the state defense council today issued a warning to all cities to guard against destructive fires that may hamper the nation's war production program.

Ralph H. Stone, executive director of the State Defense Council, said that Fire Prevention Week would serve as the springboard for a continuous campaign to reduce the number of fires "in this day and age when every minute counts in the manufacture of war weapons."

Stone, declaring that "fire started by an incendiary bomb is no more destructive than fire started by carelessness," urged local defense councils to boost their auxiliary firemen enrollment during the week.

He revealed that 10,998 Ohioans had completed training as auxiliary firemen as of August 30, an increase of more than 6,300 over the number of trained auxiliary firemen reported June 30. Attendance at classes now nearing completion is estimated at 8,000 he added.

In paying tribute to fire departments for their "excellent work in organizing and training auxiliary firemen," Stone urged all communities in the state to observe Fire Prevention Week.

"Every resource must be devoted to the winning of the war, and fires that destroy lives and material needed for ships, guns, tanks and planes must be prevented in order to ensure victory," he asserted.

WATERTOWN N. Y., CLOSES FOR ALL OUT SCRAP DRIVE

WATERTOWN, Minn., Oct. 1.—(P)—Watertown was locked up tighter than a drum—you couldn't even buy a sandwich. Every able bodied member of the 770 populace—carpenters and bank executives, housewives and school teachers, farmers and children dropped everything to join in a scrap metal search on some 400 farm yards in the area.

Greenfield

Riley-Todhunter Nuptials

Before an improvised altar flanked by seven branch candelabra lighted with cathedral tapers, Miss Elizabeth Ann Todhunter became the bride of Mr. Herschel Riley Saturday afternoon at four o'clock in the home of her parents, Mr. and Mrs. Rex Todhunter. The Rev. A. F. Leon pastor of St. Benignus Catholic Church, read the impressive ring ceremony in the presence of the immediate relatives and a few intimate friends. The attendants were Miss Kay Corcoran of Chillicothe, Miss Mary Jean Williams, of Washington C. H., Mr. Dane Isaman and Mr. John William Todhunter. Preceding the ceremony, Mrs. Leroy Hayes played Schubert's Ave Maria and Mendelssohn's Wedding March. Following the ceremony the wedding party and guests were invited to the dining room for the serving of refreshments. Mrs. Todhunter was assisted by her sister, Mrs. Roy Hale, of Vandalia and Mrs. Clarence Craver, of Milford. Mr. Riley is the son of Mr. and Mrs. J. S. S. Riley and both he and his bride were members of the class of 1941 of Edward Lee McLain High School. After a short wedding trip, they will return to Dayton and establish their home.

CHILLICOTHEAN BOND CHAMPION IN THIS REGION

Richard Dawson Sells Total Of \$11,450 War Bonds, \$6,785.90 in Stamps

Richard W. Dawson, Chillicothe, is the War Bond and Stamp selling champion of Region Four, which includes Fayette County, for the month of August and a special silver medal and \$25 War Bond will be awarded to him at a dinner to be held Wednesday, October 7, at the Westfield Inn, Le Roy, honoring his selection.

Dawson had previously been chosen as the War Bond champion of the month for Ross County, which, together with Adams, Brown, Clinton, Fayette, Gallia, Highland, Jackson, Lawrence, Pickaway, Pike, Scioto and Vinton, comprise Region 4.

At the same time Medina County will be presented with an illuminated scroll citation and the Treasury Department flag of the state in recognition of the county's outstanding record in the promotion of war bond sales during August.

In addition to Dawson, eight other regional war bond champions have been invited to attend the dinner to receive the awards provided by The Standard Oil Company of Ohio to promote the sale of war bonds in Ohio.

Dawson, according to Roy D. Moore, state administrator, has sold \$11,450.00 worth of bonds and \$6,785.90 in stamps in the sales booth which he arranged in his capacity as manager of the Woolworth Store in Chillicothe. He organized local sororities and has operated the booth continuously during business hours. This is the first booth of its type installed in Chillicothe.

CORNER CURBS PAINTED WHITE

To Be Great Aid During Blackouts and After Night Generally

Workmen employed by the city are now engaged in painting the curbs at the corners, with white paint, so that they will stand out more prominently at night, and not only aid motorists in turning corners, but will also be a guide to pedestrians as they approach the curb after night.

Another reason for the white paint is to prevent accidents during blackouts.

By painting the curbing white, further protection against damage to tires is seen, as well as aiding pedestrians during blackouts or after nightfall generally.

Within the next few days all of the main corners in the up-town area will have the white paint on the curbs.

One local resident stated that the white curbing reminds him of the steps on the sidewalks in Baltimore, where great numbers of homes have steps extending out upon the sidewalk, and the steps are painted white to guard against pedestrians walking against them.

WAR EMERGENCY Notice to the Public

In the event of an air raid warning the signal to Washington C. H. people will be:

All available factory whistles blowing prolonged up and down blasts for two minutes. Court House bell will ring three short and one long tap repeatedly, at five second intervals. Fire sirens on top of fire department building and on fire trucks will sound repeatedly.

This means for you to take all immediate air raid precautions as previously instructed. All special and volunteer firemen, policemen, air raid wardens, Boy Scouts and other civilian defense officials and appointees shall immediately go to their appointed stations.

Drivers of all automobiles or other motor vehicles, except official, fire, police or ambulance cars shall immediately pull over to the curb or roadside, turn off the engines or motors and lights and leave such vehicles standing until the all-clear signal is given.

Drivers shall not park in front of any fire exit, fire plug, fire engine house, hospital entrance or at any street intersection.

Drivers or pedestrians shall not block any street, so as to impede the free flow of traffic engaged in emergency operations.

Whenever an air raid warning is given between sunset and sunrise:

All lights outside or visible from the outside of any building, either through doors, windows, skylights or otherwise, shall be immediately put out and kept out until the all-clear signal is given. Lights inside any building may be kept on or turned on only where through the use of shades, blinds, curtains, blankets, screens, paint, paper, cardboard or otherwise, no lighting is visible from the outside. This rule shall apply to all buildings of every kind and description including, but not limited to, dwellings, residences, apartments, apartment houses, hotels, boarding houses, lodging houses, stores, public buildings, office buildings, warehouses, manufacturing establishments, industrial plants, railroad stations, schools, churches, hospitals and other institutions. The occupant of any portion of a building shall be responsible for the observance of this rule as to such portion thereof as he may occupy.

All lights on any sign, bill-board, or other similar structure shall be immediately put out and kept out until the all-clear signal is given. The owner, the lessee or the person or persons in charge of the operation of such sign, billboard, or other similar structure, shall be responsible for the observance of this rule.

No person shall wear, exhibit, display or use, for any purpose any arm band, badge, emblem, uniform, insignia or other identification or credentials issued, approved or authorized by the Council of Civilian Defense, unless he shall be entitled to wear, exhibit, display or use the same, without written permission from said Council; nor shall any person falsely impersonate any member of said Council. Application for such authority must be made to the Fayette County Council of Civilian Defense.

No person shall utter, publish, sound or otherwise simulate any warning of an enemy attack, any warning of a test or trial blackout, any signal of the end of an attack or blackout or any other official signal unless authorized to do so by the Council of Civilian Defense.

SPECIAL WARNING

When the air raid warning signal is sounded do not use telephone except for the gravest emergency call. If there is a raid in progress the telephone lines will be loaded with official calls and instructions. Your use of the telephone may seriously interfere with defense preparation and vital instructions.

The 'ALL CLEAR' signal shall be one long three-minute blast of the factory whistles.

All provisions of this notice shall apply, so far as practicable, to all other sections of Fayette County.

War, Navy and State Departments, the nation's leaders paused to ask how the Cards' spectacular ninth-inning rally had fared. But nobody asked about Hitler's speech. Now, had Der Fuehrer followed Villa's example, he might have fared better. The Mexican insurrectionist was planning an attack on the town of Ojinaga in early October of 1917 when Norman Walker of the Associated Press appeared on the scene. Publicity-conscious Pancho asked Walker for his professional advice, and the straight-faced scribe told him to wait until the World Series was over if he wanted to make the U. S. front pages. "Gracias, Amigo," said Pancho, and promptly postponed the attack. When the series was over, he captured Ojinaga, and made the front pages. REDS BREAK NAZI LINE WHILE GERMANS DRIVE DEEPER INTO STALINGRAD (Continued from Page One) northwest Caucasus were reported to have inflicted 8,000 casualties on a Rumanian mountain division below Novorossisk, and one platoon of the division was said to have "come over to the side of the Red army." Meanwhile, the approach of another grim Russian winter faced Adolf Hitler's invasion armies. Hitler's admission yesterday that the German armies would have to spend a third winter huddling in dugouts on the Soviet front, coupled with his statement that "we believe" Nazi arms would continue to pile up con-

MARKETS AT A GLANCE NEW YORK STOCKS—Firm; rails lead recovery. BONDS—Steady; carriers resume advance. CHICAGO WHEAT—About steady; early advance lost. CORN—Firm; fair shipping business. HOGS—Active; 10-20c higher on reduced run; top \$15.40. CATTLE—15-25c higher on small supply. GRAIN MARKET NEWS SUMMARY CHICAGO, Oct. 1.—(P)—A grain market advance based on Senate passage of anti-inflation legislation which would raise commodity loans granted by the government to producers was short-lived today and late profit taking reduced or erased the gains. Wheat touched highest prices since early summer before the reaction occurred. Late selling was blamed partly on uncertainty as to whether higher loan rates for basic crops were mandatory and whether they will apply to 1942 production. Wheat closed unchanged to 1/4c higher compared with yesterday. December 1.28 1/4-1.29, May 1.31 1/4-1.32; corn unchanged to 1/4c up, December 85 1/2c, May 90 1/2c; oats 1/4c lower; soybeans 3/4c lower to 1/2c higher; rye 1/4c-1/2c lower. The first car of new corn was received here from eastern Iowa. It graded sample, showed 26 1/2 percent moisture and 13.3 percent damage. DAY'S ACTIVITIES IN WALL STREET NEW YORK, Oct. 1.—(P)—Stocks generally revived today under leadership of rails and airlines. The list was a bit uneven at the opening, but trends soon began to harden and, with a fair amount of activity, gains of fractions to more than a point were well distributed. Profit taking shaded best marks in many instances. Senate passage of the wage-price bill failed to chill the market's inflation temperature to any extent and the war news remained about a stand-off as a speculative and investment influence.

SEE THE CORN YOU BUY

With hybrid corn, the important thing is NOT where the seed was grown, but how it performs where you plant it. The best way to compare varieties and decide which one suits you the best is to see them growing side by side in a soil and climate similar to yours. That's why DeKalb has more than 3300 proving grounds or demonstration fields, scattered throughout the corn-growing areas. Another reason why you should visit your DeKalb proving ground is to keep acquainted with the newest varieties that DeKalb is continually perfecting. Be sure to visit the DeKalb proving ground in your neighborhood. Your DeKalb dealer will be glad to show you the varieties that you are interested in and what they will do for you on YOUR FARM.

Grace Church To Celebrate 125th Anniversary

OBSERVANCE TO BE LAUNCHED ON OCTOBER 11

Fellowship Dinner Is To Be Feature During Celebration

Starting with the morning services Sunday, October 11, the 125th anniversary of Grace Methodist Church will be celebrated for a full week, with special speakers, music and a fellowship dinner featuring the week-long celebration.

Opening the celebration the morning of October 11, at 10:30 o'clock, district superintendent, Rev. E. F. Andree, of Wilmington, will deliver the sermon.

David S. Craig, Sr., for many years member of the official board of Grace Church, is preparing a history of the church, which he will present at that time.

At 7:30 P. M. on the same day the choir under direction of Ralph Lloyd will present a special musical program.

There will be no services on the following Monday night, but on Tuesday night, Dr. Franklin McElfresh, who was pastor when the present stone building was erected in 1895, will deliver the sermon at 7:30 o'clock.

Wednesday night, October 14, at 6:30 a fellowship dinner will be held, with all members and friends invited to attend. It will be a covered dish dinner.

A musical program will be presented by the Girls' Double Glee Club of the Washington C. H. High School, under direction of Mrs. Paul Fitzwater.

Paul Wiant, an architect and engineer, who returned from China a few weeks ago, will be the speaker of the evening, and his address is expected to be of unusual interest.

On Thursday night Rev. A. K. Wilson, of Portsmouth, former pastor of the church, will deliver the sermon.

Friday night Dr. Wm. Bashford Richards, of Greenfield, will be the speaker.

There will be no services on Saturday night, but on Sunday morning, October 18th, Dr. Rollin H. Walker, of Delaware, for 40 years professor of English Bible at Ohio Wesleyan University, will be the speaker.

Rev. George B. Parkin, pastor of the church, has been spending much time recently preparing for the celebration.

THRIFT-E MARKET HAS NEW MANAGER

Jack Tuggle Comes Here From Cincinnati

Jack Tuggle, the new manager of Marvin's Thrift-E Market on West Court Street, is now getting acquainted with the store's customers and learning what they particularly like.

He came here from Cincinnati to take charge of the market this week. He has had many years of experience in the retail grocery business and has said he has plans for giving his customers what they want when they want it.

He succeeds Marvin Hollingshead who has returned to Lebanon, his former home, where he is managing another Thrift-E Market.

Tuggle said he expected Mrs. Tuggle and his two daughters, both of whom will be in high school, to come here in the near future.

DOZEN STEEL BRIDGES TO GO TO SCRAP PILE

COLUMBUS, Oct. 1.—(P)—The State Highway Department has located more than a dozen steel bridges which can be removed and scrapped to help the scrap collection campaign, Highway Director Hal G. Sours said today.

He also said that the Office of Price Administration would be told that some steam shovels and one steel framed building could be torn down and scrapped. The Highway Department is making the survey at the request of the OPA.

STRATOSPHERE PLANE AGAIN OVER COUNTY

An Army plane, flying so high it was not visible, and leaving a long train of vapor or smoke behind it, was over Fayette County during Thursday forenoon.

A large circle of the smoke or vapor was left hanging in the sky for sometime after the plane had vanished.

5,932 DRIVERS GET LICENSES IN THIS COUNTY

Last Day Brings the Usual Rush—Many Without Drivers Permits

Wednesday, last day for obtaining auto drivers' license in order to comply with the state law while operating a motor vehicle, saw the usual last minute rush at the office of the Fayette County Auto Club, where the demand for permits was heavy up to the closing hour Wednesday night.

A total of 5,932 licenses for chauffeurs and operators was issued in Fayette County, compared with over 7,000 licenses issued in the county during the entire year just ended.

Announcement was made in Columbus that motorists venturing upon the streets or highways without a new driver's license today were liable to arrest.

Long lines of citizens gathered at offices of deputy registrars of motor vehicles all over Ohio late yesterday, seeking the permits before the midnight deadline.

Highway Director Hal G. Sours estimated that the issuance of new licenses would approximate the 3,000,000,000 of last year. Arrival of war workers from other states should help make up the loss of licenses caused by the entry of thousands of motorists into the armed forces, he said.

MANY STORES HERE HAVE SAME SPECIAL

Advertisements on Thursday Feature Soap Sale

For the first time in a long while, many of the stores in Washington C. H. will feature the same special in their individual advertisements scattered throughout the Record-Herald Thursday.

These sales and advertising features are for several of the leading brands of Procter and Gamble, one of the leading soap manufacturers of the country.

The advertising will say that housewives of Washington C. H. and Fayette County will save as much as one-third on the purchase price of these featured specials and that the sales forces of the stores will be "glad to tell you about this offer and help you obtain a worthwhile saving."

Sea waves caused by the volcanic eruption of Krakota in 1883 took 36,380 lives.

WATER SITUATION TO BE DISCUSSED

Conservation of Soil and Water To Be Topic

Soil and water conservation in Ohio, with particular reference to their need in Pickaway and adjoining counties will be the subject of an address by Brooks Burnside, Agricultural Agent of the Ohio Chamber of Commerce, at a meeting of the Senior and Junior Chambers of Commerce and representatives of farm groups and agricultural agencies, at a dinner meeting in St. Phillips Parish House, at 6:45 P. M., October 20.

Burnside will speak of the menace to agriculture, industry and communities in many sections of Ohio because of the serious consequences of the falling water table and of the necessity for conserving soil through proper land use management.

The Ohio Chamber of Commerce has initiated a campaign through its District Councils in the state in order to emphasize the importance of these phases of conservation. The District Councils' Five-Point Agriculture and Conservation program also will be discussed by Burnside.

GERMAN CANNON HERE NOT GIVEN FOR SCRAP

The German cannon which stands on the court house lawn here, has not been consigned to the scrap heap, as some persons had thought as result of an article recently carried regarding a small cannon on the court house lawn at Circleville, and two of three Civil War cannons in the Forest Cemetery at that place, consigned to the scrap heap.

The cannon here was obtained by the American Legion from guns captured from the Germans in World War I.

SCOUT LEADER RETURNS FROM REGION MEETING

Coordination of Scout Work With War Effort, He Says, Was Main Purpose

Harold Laymon, field Scout executive for this three-county district (Fayette, Highland and Pickaway) today was back at his home and headquarters in Washington C. H. with new ideas for the scouting program which he picked up while attending the regional meeting of Scout executives at Columbus the past several days.

One of the highlights of the series of conferences, he said, was the appearance of four King Scouts—boys of the organization who had been decorated by King George of England for their heroic service and good deeds during the Nazi blitz air raids on their homeland. Laymon expressed the conviction that the four Scouts had done more to build up good will between the British and American people than any delegation of dignitaries ever could have.

This conference was made up of executives from the five states in the region (Ohio, Kentucky, Virginia, West Virginia and Tennessee). On the program were nationally known educators, social workers and specialists in certain phases of Scouting.

According to Laymon the keynote of the conference was the important job that Scouting has to do in the present conflict. Many ways were suggested as to the best means of carrying out the many responsibilities that government agencies have asked the Boy Scouts to lend their efforts toward.

Here in Washington C. H., the Scouts are being certified as OCD messengers as rapidly as they complete the necessary training. During blackouts they render valuable service to their own zone wardens and in relaying messages from the control center to other parts of the city.
